

Preschool Take and Make FISH!

This kit has 4 separate activities

Activity: Fish maze. Use a finger, a pencil, crayon, etc to find the way from the Start to the Finish.

Activity: Fish Counting and Color Book. Read the book to your child. Have your preschooler cut out the individual fish from the large sheet. Use those cut out fish to fill the empty box on each page. Use the glue stick.

Activity: Go Fish! Not the card game. Using the large craft stick fishing pole, try to hook one of the foam fish by slipping the rubber band over the paper clip hook.

Activity: Make a Fish. Using the paper plate fish cutout, glue paper circle scales to the fish. See the picture for an example of how to place the paper circle scales.

Do you have a book about Fish? We can't wait to see your creations! Have fun!
